

# Our Patients, Your Team

At Carbon Health, our clinicians have been working tirelessly to make sure people are getting the care they need during this pandemic. As the world starts to reopen and rebuild, we're here to help get your business COVID Ready.

## Why Carbon Health

Carbon Health has tested more than 25,000 Californians and nearly 35% of San Franciscans who have been tested

Demonstrated excellence in testing: We never closed our clinics and have been testing for COVID-19 since Day 1

Partner of choice for the City of San Francisco and Los Angeles County

We offer a complete end-to-end care cycle: Testing, Monitoring, Education, Intervention & Care

## COVID-Ready Features

### Testing

We offer a myriad of testing options and modalities including Antibody, Diagnostic, On-Site, and At-Home.

Our robust lab partnerships means we choose the best partner for the best use case including capacity and location. Any Carbon Health lab partner is FDA EUA approved and has a minimum sensitivity and specificity rate.

### Education

Our educational tools empower employees to learn about ongoing infection risks, potential outbreak management, and best practices on maintaining clean and safe workspaces.

### Monitoring & Reporting

Our app provides seamless daily check-ins to monitor and track symptoms of all employees.

Monitor individual employees, see test results, and check daily symptom tracker compliance mandates through your customized dashboard.

### Customized Action Plans

Should any of your employees exhibit symptoms, we have step-by-step plans in place that include testing and anonymous contact tracing managed by Carbon Health.

### Complete or Virtual Care

We offer broader clinical services at Carbon Health clinics and virtually through the Carbon Health app.

Carbon Health Virtual Care currently covers to 3/4 of the United States population today and continues to grow responsibly as their business reopens.

## Pricing

COVID Ready starts at \$20 per employee, per month. However, pricing can vary based on specific needs and testing methods. Contact the Carbon Health sales team to get a custom quote today [trent@carbonhealth.com](mailto:trent@carbonhealth.com).

## The Carbon Health Difference

- We are a national, fast-growing healthcare provider.
- The Carbon Health App and all services are HIPAA compliant.
- We can execute customized testing programs.
- All testing is done in-house or if not available at a Carbon Health clinic, referrals will be made.
- We provide contact tracing.
- Clinical guidelines are vetted and updated daily.
- Content and resources are available in Spanish.
